Emission Reduction Plan

Exmouth Boat and Kayak Hire

Tourism Emissions Reduction Commitment

Member Number:	AT07712775	**12 Month Ending:**	Jun 2026
Industry:	Accommodation, Tourism & Food Services	**Date of Report:**	10 July 2026
		Member Since:	Jul 2026
Location/s:	Western Australia	**Core Stages:**	Complete

Stage / Option	Action Detail		By When	Status
1:Measure	We are committing to take action to reduce carbon emissions			
	Carbon emissions footprint: 30.0 **Less sponsored offsets:** 0 tonnes Net carbon emissions footprint: 30.0 tonnes **Emission data validation:** Estimated Essentials, verified and input by the Member. **Top Three of emissions:** Business Fuels, Electricity			Complete
2:Reduce	We are adjusting operations to reduce emissions			
	Encourage passengers to travel light	We will include this in our pre hire information pack to encourage hirers to minimise items that they take out when boating	By 2027	Underway
	Optimise tour routes	In our daily pre hire induction we go over planned destinations and make recommendations based on wind and waves where best to go to minimise fuel consumption	By 2024	Complete
	Regular service and maintence of outboard motors.	We perform regular services on all our motors so that they run as efficiently as possible and minimise fuel consummption and emissions	By 2023	Complete
	Choose sustainable suppliers	We soure our motors from suppliers that have emission reductions in place and we regular replace our motors so that technology is as current as possible with the best reductions and efficiencies in place.	By 2023	Complete
	Increase freight efficiency	We order in bulk where possible and actively source materials with minimal packaging	By 2023	Complete
	Replace lighting with LEDs	All lighting are LEDs	By 2023	Complete
3:Avoid	We are adopting renewables for purchased power			
	Our Locations	**Current Renewable Adoption**	**Action for 100% transition**	**Goal for 100% Transition**
	7 Patterson Way	Low	Leading Renewable Energy Retailer	By 2030 — Complete
Support	I'm supporting other businesses in efforts to combat climate change			
	Groups I have joined: Business community climate action program Industry climate action program Supplier climate action program			

Better business. Better future.

The emissions stated within this reduction plan have been measured by a qualified third party and accurately input by the business.

Estimated Carbon Emissions are calculated from user input into the Emissions Estimator, which uses recognised emission standards, including the GHG protocol, ISO14064, EPA Guidelines and those issued by the Department of Climate Change, Energy, the Environment and Water.
